

Aquatec Fish Tank Cleaner - FTC

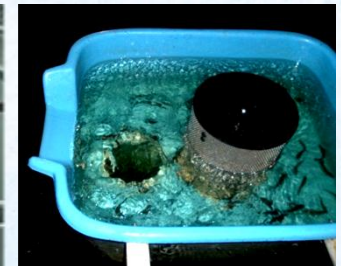

Aquatec Solutions A/S is aiming for simplicity in design.
Users say: "The FTC is one of the most revolutionary steps in fish farming"

Facts

- Collects dead fish, faeces and waste feed
- Standard components
- Large sieve prevents blocking
- Easy installation

Benefit

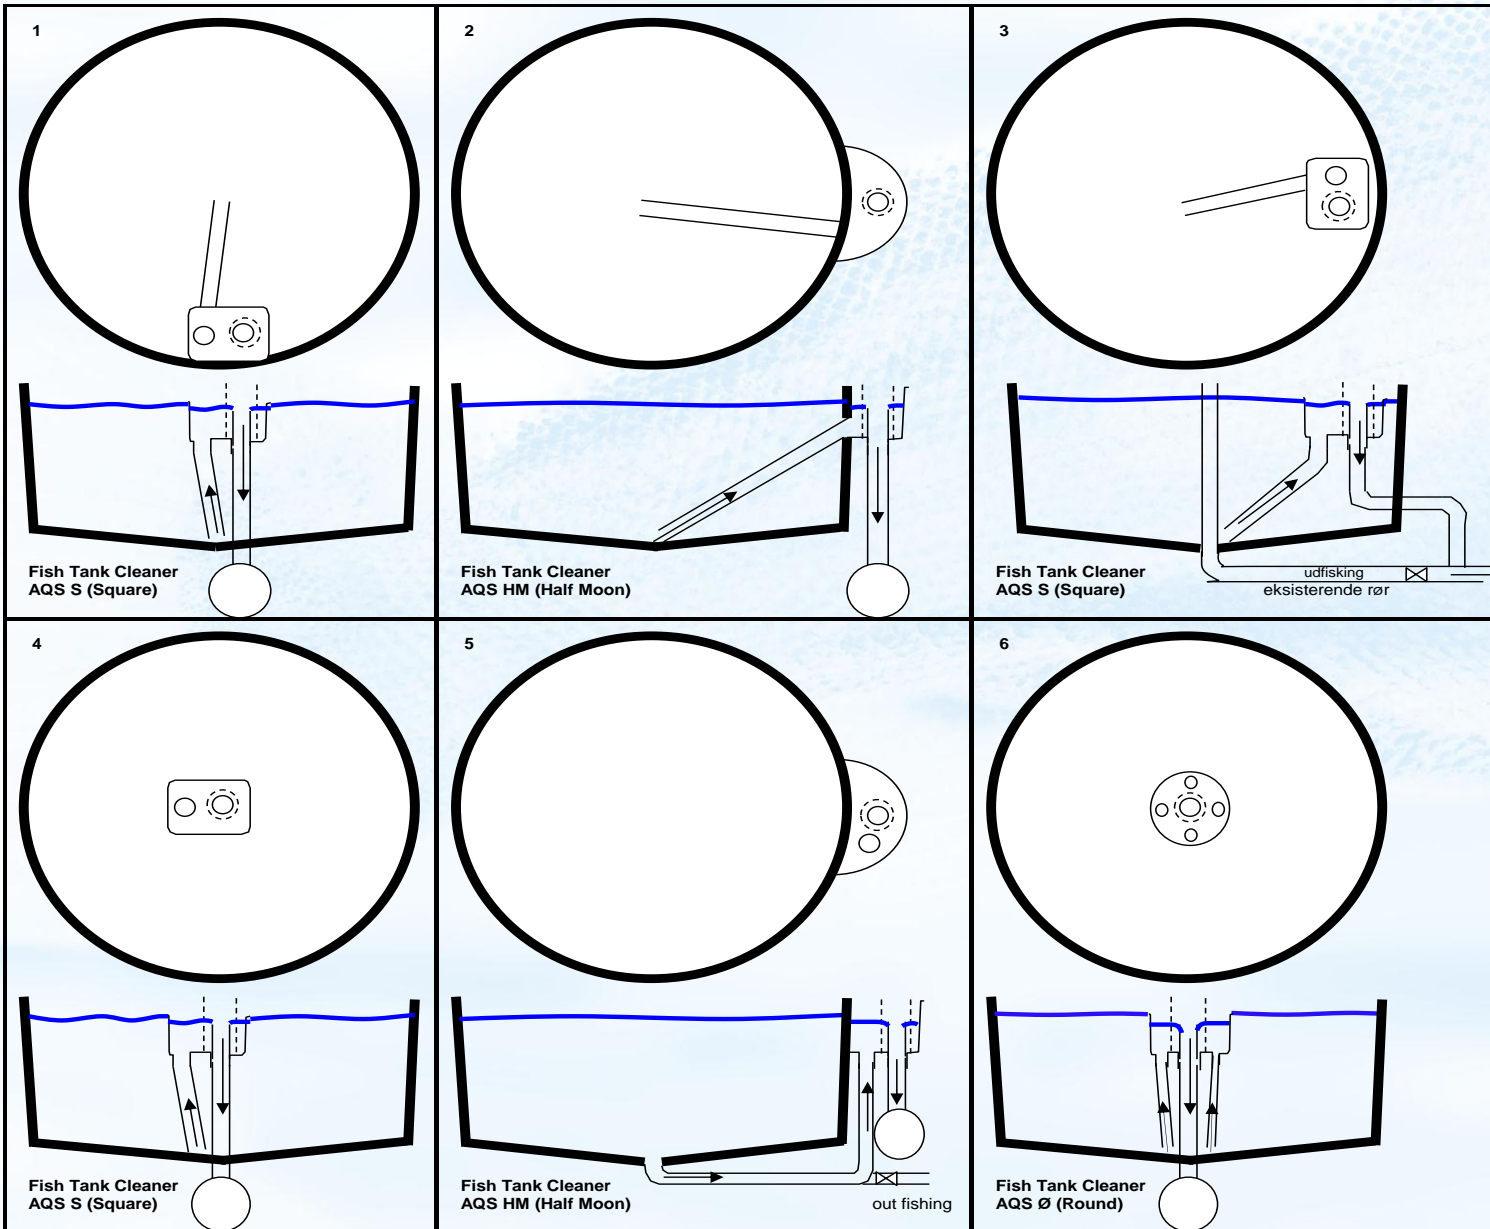

- Easy cleaning
- Non blocking
- No disturbance of fish while cleaning
- Excellent function from start feeding to large fish.
- Reduces stress on fish
- Overfeeding is easy to register

Aquatec Solutions offer Fish Tank Cleaners in different shapes and models depending on the requirements

- Shape: Round, squared or half moon
- Placement: Center, inside or outside

The most important information for dimensioning FTC is fish sizes, water flow and tank diameter.

AQS Fish Tank Cleaner models:

AQS S (Square)

AQS HM (Half Moon)

AQS Ø (Round)
